To whom it may concern,

Letter of intent and support for the Region of Southern Denmark

With this letter the European Connected Health Alliance (ECHAlliance) confirms our interest in participating and contributing to the Region of Southern Denmark's membership of The European Innovation Partnership on Active and Healthy Ageing 2016 - 2018.

During the period of membership the Region of Southern Denmark will keep us informed of relevant initiatives, events and tasks which might be in our interest.

Furthermore, ECHAlliance declares it will collaborate with the Region of Southern Denmark to launch a regional Ecosystem during 2016 and connect it to 25+ regions participating in the ECHAlliance International Connected Health Permanent Ecosystems Network, offering 100+ regional ecosystem gatherings per year, across Europe and beyond.

ECHAlliance is a trusted connector in healthcare; we bring people, organisations, needs and solutions together. We exist to facilitate multi-stakeholder connections, to create and strengthen partnerships committed to driving sustainable change in the quality and efficiency of health and social care.

ECHAlliance is a growing community of 400+ organisations and 15,000+ individuals; policymakers, companies (large, SMEs/start-ups), researchers, payers (public & private), health & social care providers, patients' representatives and investors.

ECHAlliance is therefore a platform of collaboration and large dissemination (through international and regional events) in Europe, North America (USA, Canada) and China.

This declaration of intent is without any financial obligations or responsibilities and ECHAlliance can at any given time terminate the participation and/or contribution.

Yours sincerely,

Brian O’Connor
Chair
